

BLAKE PRINTY

blakehprinty@gmail.com | blakeprinty.github.io | linkedin.com/in/blake-printy/

Hard working recent graduate with a Certificate of Software Developer from WeCanCodeIT. Goal oriented web developer looking to put my skills to use working in a cross-functional team. I am a fast learner looking to take on a new challenge and grow as a developer working toward your company's goals.

Development Experience

AlbumSongs - Full Stack Developer

Developed and tested Single Page Web Application allowing users to view, add, delete and edit albums and songs, as well as being able to leave comments and reviews. Worked in a cross-functional team, specializing in backend development (creating the API) to deliver the final product.

Spring • Java • Javascript • HTML/CSS • API • MVC • CRUD Repositories

WordleSolver - Full Stack Developer

Designed, developed, tested, and deployed Web Application to allow users to solve the daily wordle. The application removes words based on user input to find the solution.

HTML/CSS • Javascript • Single Page Web Application

Work Experience

FedEx Ground - Package Handler

Responsible for warehouse duties including the physical loading, unloading and sorting of more than 70,000 packages of varying sizes and weights by hand per shift.

June 2021 - Present

Hometown Pizza - Delivery Driver

Responsible for communicating with customers, sorting and delivering multiple orders at a time in the most efficient route.

July 2018 - August 2021
