

BLAKE PRINTY

FULL-STACK SOFTWARE DEVELOPER

Ellington, CT • Blakehprinty@gmail.com • Blakeprinty.github.io • LinkedIn.com/in/blake-printy

Hard working recent graduate with a Certificate of Software Development from WeCanCodeIT. Goal oriented web developer looking to put my skills to use working in a cross-functional team. I am a fast learner looking to take on a new challenge and grow as a developer working toward your company's goals.

Development Experience

HabiTrack

Built Single Page Web Application allowing users to create and track habits they wish to build upon or break. Utilizing Spring, Java, REST API, MVC Architecture, HTML, CSS, JavaScript, working in a cross-functional team to deliver the final product.

WordleSolver

Created JavaScript web application where users are able to submit their guesses to end up with the answer to the Wordle. A solo project using HTML, CSS, JavaScript to achieve the final product.

SmartMoney

Designed and developed web application to allow users to track their spending habits, income, and be able to check if they are able to afford potential purchases. Worked as the full-stack solo developer utilizing Spring, Java, HTML, CSS, JavaScript, and Thymeleaf.
